

International Conference on **Sustainable India: Bridging ESG Principles with Indian Knowledge Systems**

February 16-18, 2026, Bengaluru, India

AT JAGSoM: THE INDIAN KNOWLEDGE SYSTEMS (IKS)

The Indian Knowledge System (IKS) represents one of the world's most ancient and comprehensive traditions of intellectual inquiry, deeply rooted in the cultural, spiritual, and philosophical heritage of India. Central to IKS is a holistic worldview that emphasizes the interconnectedness of all life forms, harmony with nature, and a value-based approach to life.

In alignment with the National Education Policy (NEP) 2020, which has made IKS a mandatory component in higher education curricula, we have embraced IKS not merely as a subject, but as the philosophical core for creating ethical leaders.

Jagdish Sheth School of Management (JAGSoM), hosted in association with NHRD on November 28, 2025, AI and HR Confluence, which served as

a potent example of how our institution operationalizes IKS principles in a real-world business context. The readiness of our students to engage with this ethical-analytical complexity is validated by our incoming cohort profile.

JAGSoM's Kanyathon event is another student-driven Annual Charity Run aimed at uplifting the lives of the girl child and for women empowerment. Kanyathon impacts the UN Sustainable Development Goals (SDG 1 'No Poverty' and SDG 5 'Gender Equality'). Kanyathon has completed 14 editions. Kanyathon Shiksha Kendra, a digitally enabled classroom in Kolar, Thirupalya and Huskur is managed by students to promote English and computer literacy and health and hygiene.
